PRESENTATION AND OPERATION

→ The psychological help resource at sea, CRAPEM in french (Centre Ressource d'Aide Psychologique En Mer), part of the public service, allows access to care for all seafarers in psychological suffering and sedentary people in the maritime environment

- ⚓ It is open to anyone with a punctual or regular need to meet professionals around their psychological or relational difficulties.
- ⚓ The entourage of a suffering person can also find information, advice, support or care.
- ⚓ Consultations can be carried out face-to-face or by telephone.

→ Missions

- ⚓ Assessment and care of seafarers, their entourage and sedentary personnel in the maritime environment.
- ⚓ Coordination of psychological rescue care, demergering, debriefing of sailors and maritime rescue actors during sea events.
- ⚓ Training and information on psychological suffering adapted to the specificities of the maritime environment (e.g. identification of suicidal, traumatic, exhaustion crisis, etc.)
- ⚓ Training of medical-psychological emergency actors on the specificities of the on-board clinic.
- ⚓ Accompaniment, advice, orientation of the various partner actors.

→ CRAPEM is composed of a multi-professional team

- ⚓ Secretary
- ⚓ Nurse specialized in suicide prevention and bereavement support
- ⚓ Nurses specialized in psychotraumatology
- ⚓ Referring psychiatrist
- ⚓ Psychologist specialized in psychotraumatology
- ⚓ Health Framework
